

Cody J. Boillot, MBA, CSM

Senior Delivery Manager | Technical Program Manager | Technical Training Manager
Orlando, FL • (317) 869-7789 • Boillot.Cody@gmail.com • www.CodyBoillot.com

PROFESSIONAL SUMMARY

Delivery and technical program leader with 15+ years running complex, multi-team software programs and developing the people who deliver them. Certified Scrum Master and MBA who manages onshore and offshore teams to schedule, budget, and quality, owns client relationships and executive reporting, and builds the training programs that turn junior engineers into fully independent contributors (60+ coached, 90%+ retention). Delivery-model credibility from the inside: began as a Cognizant consultant placed at Sallie Mae and was hired full-time by the client on the strength of performance, the contract-to-hire test, passed. A hands-on builder (founder of a revenue-producing AI-agent SaaS product) and combat veteran who leads with clear priorities, discipline, and trust.

CORE COMPETENCIES

Delivery Management (Schedule, Budget, Quality, SLAs) • Onshore / Offshore Team Coordination • Client Relationship & Executive Reporting • Technical Program & Project Management • Multi-Project & Dependency Coordination • Agile / Scrum Delivery (CSM) • Metrics, KPIs & Risk Management • Technical Training & Curriculum Design • Onboarding, Coaching & Mentorship Programs • Vendor & Contract Management • Change Management & Adoption • Regulated / Compliance-Driven Delivery • AI-Assisted Delivery & Tooling

PROFESSIONAL EXPERIENCE

Founder & Builder

LoPro CRM LLC 2024 – Present

- Designed, engineered, and launched a **revenue-producing** SaaS CRM platform powered by autonomous AI agents, architecting the full stack from data model to agent orchestration and taking it from concept to a live, paying product.
- Owned the entire lifecycle: infrastructure, integrations, deployment, go-to-market, and customer onboarding, proving end-to-end delivery of a scalable commercial product.

Software Development Engineering Manager / Technical Program Manager

Sinclair Digital 2023 – Present

- Lead delivery of multiple concurrent technology programs across a 40+ person engineering organization, owning schedule, budget, resourcing, and quality from initiation through closure, and reporting progress, milestones, and risk to executive leadership.
- **Designed and ran a structured training and development program** that took 60+ engineers from onboarding to full independence on permanent product teams, achieving 90%+ retention, including a gamified learning platform built to target and close individual skill gaps.
- Led a vendor consolidation initiative replacing multiple suppliers with a single platform, negotiating contracts and managing the transition to deliver **\$5M+ in annual savings** with zero disruption to operations.
- Coordinate internal teams, contractors, and vendor partners as the primary liaison between engineering and business stakeholders, driving change management and adoption of new tools and workflows.
- Architected and shipped a suite of internal platforms (below) in daily use across the organization, spanning AI app-building, deployment automation, project delivery, and training.
- Founded a weekly TED-style speaker series (Tech Talks) that reshaped culture around education and knowledge-sharing across the org.

Product Owner & Engineering Manager

Indiana Dept. of Workforce Development 2021 – 2023

- Led delivery across 3 teams for large-scale platforms serving thousands of users, coordinating cross-functional dependencies, sprint ceremonies, and delivery against cost and schedule targets in a compliance-driven public-sector environment.
- **Improved operational reliability and release predictability by 35%** through process improvements and structured accountability.

Software Development Engineer & Scrum Master

Sallie Mae 2020 – 2021

- **Hired directly by the client following contract-to-hire conversion**, continuing to deliver enterprise applications and automated business workflows in a regulated financial-services environment.
- Served as Scrum Master, coaching teams on Agile best practices and consistent delivery cycles.

Software Developer (Consultant)

Cognizant Technology Solutions — Client: Sallie Mae 2018 – 2019

- Delivered software for a regulated financial-services client inside Cognizant's onshore delivery model, building enterprise applications to client quality standards and coordinating with distributed delivery teams.
- **Passed the contractor test: converted to full-time client employee at Sallie Mae's request**, a proven, verifiable record of reliability, performance, and client trust in the contract delivery model.

Senior Operations & Sales Manager

Angi & Others 2010 – 2018

- Managed site-level operations and built training programs that measurably accelerated team productivity and engagement across multiple business units and locations.

Combat Sergeant & Aviator

U.S. Air Force 2001 – 2010

- Deployed multiple times across two wars in Iraq and Afghanistan, leading airmen in active war-zone operations; responsible for training, safety, performance, and morale under sustained pressure.
- Completed Airman Leadership School. Held Top Secret/SCI clearance (now expired; readily renewable).

KEY PLATFORMS BUILT

DaaS — Development as a Service — *Streamlined delivery platform*

- Built a simpler, faster alternative to Jira for managing development work; launched on AWS serving 100+ daily users with defined service standards and adoption metrics.

Deploy Genie — *Self-service deployment platform*

- Created a self-service system standing up applications on AWS behind company SSO with custom URLs, turning a manual, engineering-gated process into a few-click workflow.

Training Hub — *Gamified skill-development platform*

- Designed a gamified learning platform helping engineers target and close skill gaps with badges and achievements; central to the 60+ engineer development program.

Vibe Genie — *AI app-building platform*

- Built an internal AI-powered platform that generates working applications from natural-language prompts for engineers and non-engineers alike.

EDUCATION & CERTIFICATIONS

- Master of Business Administration (MBA), University of Phoenix
- Doctoral Candidate, Industrial & Organizational Psychology (expected 2026), Touro University
- Bachelor of Arts, Political Science, University at Buffalo
- Certified Scrum Master (CSM)
- Project Management Professional (PMP) — in progress

TECHNICAL SKILLS

Delivery & Program: Jira, Confluence, Smartsheet, Airtable, Miro, Figma; Agile/Scrum; KPI dashboards, risk & change management

Engineering: AWS, React, Node.js, REST APIs, CI/CD, SQL, SSO integration

AI: Agentic AI systems, Claude Code, Cursor, n8n, custom AI platforms built in-house
